Regression Test: Add Task after Previous Task Deletion

Objective: Verify that deleting a task does not affect the ability to add and view subsequent tasks.

Steps:

1. Navigate to the "Add Task" page.
2. Add a task with the following details:
    - Date: 2024/12/13
    - Time: 9:00 AM - 10:00 AM
    - Name: Regression Test Task 1
    - Tag: Regression Tag
3. Delete the task via the "Upcoming Tasks" list on the home page.
4. Add another task with the following details:
    - Date: 2024/12/14
    - Time: 11:00 AM - 12:00 PM
    - Name: Regression Test Task 2
    - Tag: Regression Tag
5. View the "Upcoming Tasks" box and verify that Regression Test Task 2 appears.

Expected Output/Action:

- Regression Test Task 1 is successfully deleted.
- Regression Test Task 2 is added and appears in the upcoming tasks list.
