

Manual Test 4: Query by Name

Test Description: Search for a task by its name.

Steps:

- Navigate to the "Search Tasks" page.
- Enter the task name: Manual Test Task.
- Execute the search.

Expected Output/Action: Manual Test Task is displayed with correct details.

The screenshot shows a web browser window with the title 'Personal Time Manager' and the address 'localhost:50617'. The application interface has a blue header bar with the text 'Personal Time Manager'. Below the header, there is a navigation link '← Search Tasks'. The main content area is titled 'Search & Filter Tasks'. It contains a search input field with the text 'Manual Test Task' and a 'Search' button. Below the search field, there are two date input fields labeled 'Start Date' and 'End Date', and a 'Filter' button. A 'Generate Report' button is also present. The search results are displayed in a blue box with the text 'Manual Test Task' and '2024/12/11 - 10:00 AM to 11:00 AM'. There is also a 'Test Tag' button with a red icon.

Test Successful:  Task retrieved by name.
