

# Acceptance Test: Overall Task Workflow

**Objective:** Validate the application's ability to handle an end-to-end task management workflow.

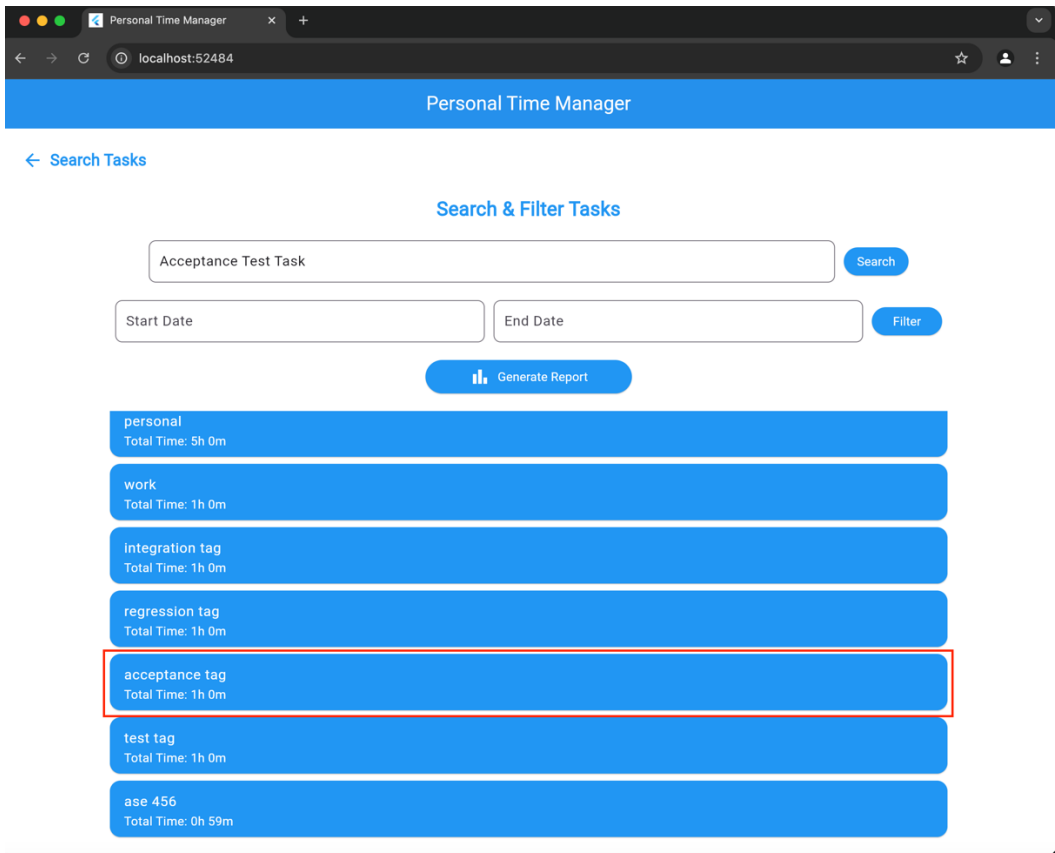

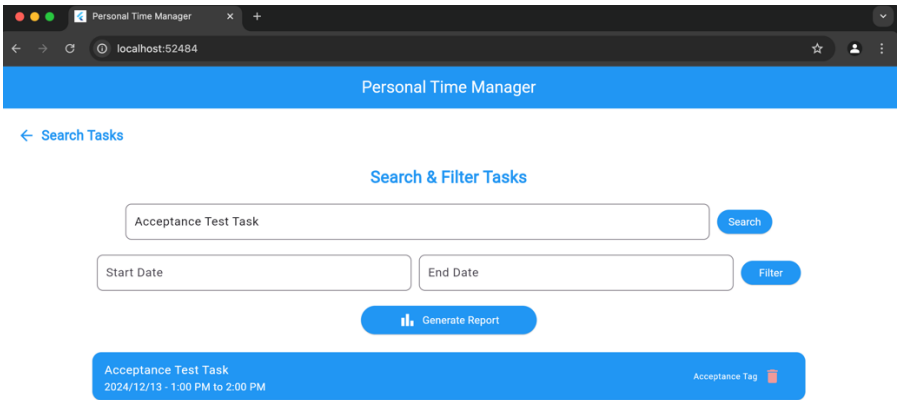

**Steps:**

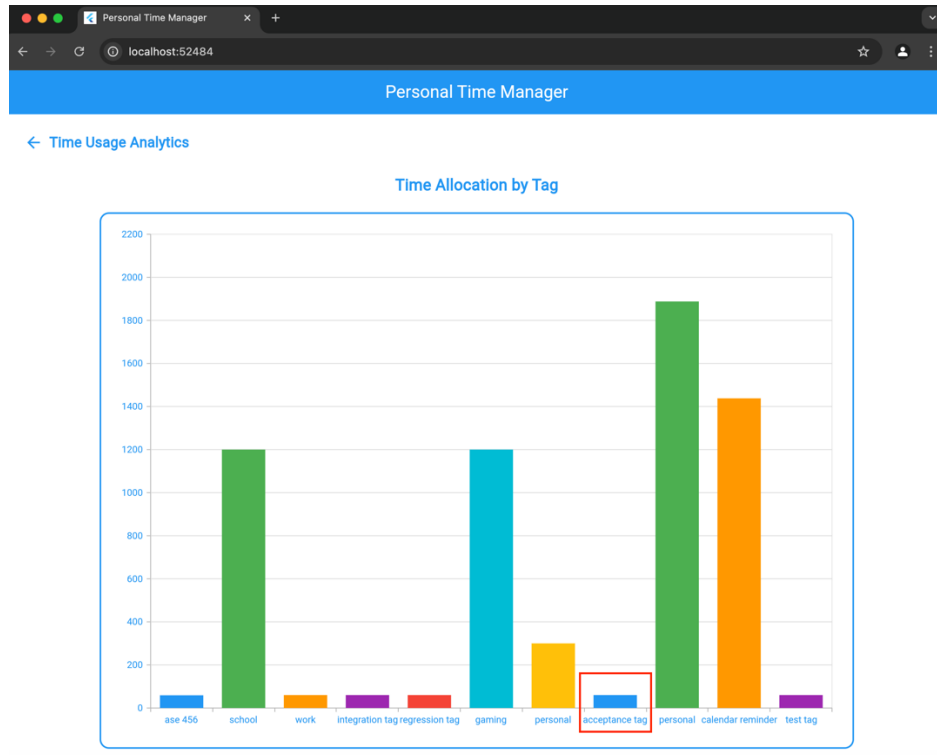

1. Launch the application and ensure it loads without issues.
2. Add a task with the following details:
  - o Date: 2024/12/13
  - o Time: 1:00 PM - 2:00 PM
  - o Name: Acceptance Test Task
  - o Tag: Acceptance Tag
3. Query the task by name (Acceptance Test Task).
4. Generate a report and verify the task duration (1 hour) is included.
5. Navigate to the "Time Usage Analytics" page and confirm the task is reflected in the time usage chart.

**Expected Output/Action:**

- Application launches successfully.
- Task is added, queried, and displayed in reports and analytics.

The screenshot shows a web browser window titled "Personal Time Manager" with the URL "localhost:52484". The application has a blue header bar with the title "Personal Time Manager". Below the header, there is a link "Add New Task" with a left-pointing arrow. The form contains five input fields: "Date (YYYY/MM/DD)" with the value "2024/12/13", "From Time (HH:MM AM/PM)" with the value "1:00 PM", "To Time (HH:MM AM/PM)" with the value "2:00 PM", "Task" with the value "Acceptance Test Task", and "Tag" with the value "Acceptance Tag". Below the form is a blue "Save Task" button. At the bottom, there is a blue confirmation card that displays "Acceptance Test Task" and "2024/12/13 - 1:00 PM to 2:00 PM" on the left, and "Acceptance Tag" on the right.

**Test Successful:**  The application meets all functional and usability requirements.
